China Mobile HK launches cross-network mobile TV service

Tuesday 11 December 2012 | 01:59 CET | News

China Mobile Hong Kong has introduced its cross-network, multi-platform UTV mobile TV service. The service supports Android smartphones, tablets, computers, TVs and TV dongles, as well as portable media players that come with China Mobile Multimedia Broadcasting (CMMB) software. UTV will offer eight channels, which includes free channels as well as paid content, at HKD 58 per month.
